Contractor shall develop a review methodology to accomplish the above Container inspection requirements and such methodology shall comply with the requirements of 14 CCR Section 18984.5(b)-(c).

During the Term of this Agreement, Contractor may, subject to written County Contract Manager approval, use an alternate, enumerated Contamination Monitoring Option. Contractor must submit its request to utilize an alternate Contamination Monitoring Option thirty (30) days prior to January 1 of each calendar year.

1. Route Reviews

Hauler Route reviews shall be conducted in a manner that is deemed safe by the Contractor; is approved by the County; and, is conducted in a manner that results in all Hauler Routes being reviewed annually. The Contractor shall conduct Hauler Route reviews that include inspection of the contents of Customers' Collection Containers for Prohibited Container Contaminants in a manner such that a minimum of five percent (5%) of Containers on each and every Hauler Route are inspected annually.

Contractor shall submit its proposed Hauler Route review methodology for the coming year to the County no later than January 15 of each year describing its proposed methodology for the calendar year and schedule for performance of each Hauler Route's annual review. Contractor's proposed Hauler Route review methodology shall include not only its plan for Container inspections but shall also include its plan for prioritizing the inspection of Customers that are more likely to be out of compliance. County and/or CalRecycle will review and approve the proposed methodology. Contractor may commence with the proposed methodology upon approval.

If the County and/or CalRecycle notifies the Contractor that the methodology is inadequate to meet the requirements of 14 CCR Section 18984.5(b), Contractor shall, at its sole expense, revise the methodology and, after obtaining County or CalRecycle approval, conduct additional Hauler Route reviews, increased Container inspections, or implement other changes using the revised procedure. If the Contractor's proposed methodology meets the requirements of 14 CCR Section 18984.5(b), but has been deemed inadequate by the County, the Contractor shall, at the expense of the County, revise the methodology and implement the necessary changes using the revised procedure.

If Contractor utilizes the physical container inspection method detailed above, the County's Contract Manager may request, and Contractor shall accept, modifications to the schedule to permit observation of the Hauler Route reviews by the County; provided that any such request does not impede Contractor's ordinary business operations. In

5. The Contractor shall Transport all of the material Collected for sampling to a sorting area at an Approved Facility, where the presence of Prohibited Container Contaminants for each Container type shall be measured to determine the ratio of Prohibited Container Contaminants present in each material stream by weight. To determine the ratio of Prohibited Container Contaminants, the Contractor shall use the following protocol:
 - a. The Contractor shall take one sample of at least 200 pounds from the

- material Collected from each material stream for sampling. For example, Contractor shall take a 200-pound sample taken from the combined contents of the SSGCOW Container samples.
- b. The 200-pound sample shall be randomly selected from different areas of the pile of Collected material for that material stream.
 - c. For each 200-pound sample, the Contractor shall remove any Prohibited Container Contaminants and determine the weight of Prohibited Container Contaminants.
 - d. The Contractor shall determine the ratio of Prohibited Container Contaminants in the sample by dividing the total weight of Prohibited Container Contaminants by the total weight of the sample.
 - e. All weights shall be recorded in pounds.
6. The Contractor shall Transport all of the material Collected for sampling to a sorting area at an Approved Facility, where the presence of Prohibited Container Contaminants for each Container type shall be measured to determine the ratio of Prohibited Container Contaminants present in each material stream by weight. To determine the ratio of Prohibited Container Contaminants, the Contractor shall use the following protocol:
- a. The Contractor shall take one sample of at least a 200 pounds from the material Collected from each material stream for sampling. For example, Contractor shall take a 200-pound sample taken from the combined contents of the SSGCOW Container samples.
 - b. The 200-pound sample shall be randomly selected from different areas of the pile of Collected material for that material stream.
 - c. For each 200-pound sample, the Contractor shall remove any Prohibited Container Contaminants and determine the weight of Prohibited Container Contaminants.
 - d. The Contractor shall determine the ratio of Prohibited Container Contaminants in the sample by dividing the total weight of Prohibited Container Contaminants by the total weight of the sample.
 - e. All weights shall be recorded in pounds.
7. If the sampled weight of Prohibited Container Contaminants exceeds twenty-five percent (25%) of the measured sample for any material stream, the Contractor must either:
- a. Within fifteen (15) Working Days of the waste evaluation, notify all Generators

on the sampled Hauler Route of their requirement to properly separate materials into the appropriate Containers. The Contractor may provide this information by placing a written notice on the Generators' Containers or the gate or door of the Premises; and/or by mail, email, or electronic message to the Generators. The format of the warning notice shall be approved by the County Contract Manager;

or

b. Within fifteen (15) Working Days of the waste evaluation, perform a targeted Hauler Route review of Containers on the Hauler Route sampled for waste evaluations to determine the sources of contamination and notify those Generators of their obligation to properly separate materials. The Contractor may provide this information to these Generators by placing a written notice on the Generators' Containers or the gate or door of the Premises; and/or by mail, e-mail, or electronic message to the applicable Generators. The format of the warning notice shall be approved by the County Contract Manager.

ARTICLE 9: COUNTY FEES

9.1 COUNTY FEES

- A. **Franchise Fees.** In consideration of the exclusive rights provided Contractor herein, Contractor agrees to pay the negotiated amount of Franchise Fees to the County each quarter equal to five percent (5%) of Gross Receipts for all services performed under this Agreement. Contractor and County agree that this is a fair and appropriate sum for the commercial entitlements provided to Contractor herein.
- B. **Other Fees.** The County shall reserve the right to set other fees as it deems necessary, subject to County Board of Supervisors approval. The time and method of payment shall be consistent with those for the Franchise Fee, and the fee adjustment process shall be consistent with that specified in Article 10. Any new or modified fee imposed by County shall be considered a County-directed change under Section 4.9 and Contractor shall be entitled to a Rate adjustment in accordance with Section 10.3 to compensate for such new or modified fees.

9.2 ADJUSTMENT TO FEES

The County may adjust the fees established in this Article from time to time during the Term of this Agreement and such adjustments shall be included in the adjustment of Maximum Rates as a pass-through cost that Contractor may include as an itemized cost on its invoices to Customers. The amounts of the fees for subsequent Rate Periods shall be adjusted annually in accordance with the adjustment method described herein, or shall be the amount specified by the County. The County acknowledges that the Contractor shall be entitled to recover, through the Maximum Rates to be charged and authorized to be imposed hereunder, the reasonable costs of the Contractor incurred due to the adjustment in the fees.

9.3 PAYMENT SCHEDULE AND LATE FEES

Within thirty (30) days of the end of each calendar quarter, during the Term of this Agreement and including the final calendar quarter or portions thereof at the end of the Term of this Agreement, Contractor shall remit to County all fees as described in this Article. Such fees shall be payable to County and sent or delivered to the County Contract Manager.

If such remittance is not paid to County on or before the thirtieth (30th) day following the end of a calendar quarter, all fees due shall be subject to a delinquency penalty of one percent (1%), which attaches on the first day of delinquency. The delinquency penalty shall be increased an additional three percent (3%) and applied to both the original amount due as well as any delinquency penalties previously applied for each additional month the payment remains delinquent. For example, if the amount of the original fees owed equals one hundred thousand dollars (\$100,000) the initial delinquency amount applied on the first day of delinquency will be three thousand dollars (\$1,000) bringing the total amount to one hundred three thousand dollars (\$101,000). If that amount becomes past due for an additional month, the additional delinquency penalty shall be applied to the one hundred three thousand dollars (\$101,000).

Each quarterly remittance to the County shall be accompanied by a statement listing the amount of each fee paid; calculation of each fee; and, statement of Gross Receipts, by Customer Type for the period Collected from all operations conducted or permitted by this Agreement. The County Contract Manager may, at any time during the Term, request a detailed calculation of Gross Receipts which may include, but is not necessarily limited to, the number of Customers charged at each Service Level and Rate for each billing period.

The County Contract Manager may, at any time during the Term or within three years following the expiration or early termination of this Agreement, perform an audit of Contractor's billings and payment of fees. Contractor shall fully cooperate with the County Contract Manager in any such audit. Should the County or its agent perform this review and identify billing errors or other errors in payment of fees resulting in an overbilling to customers or an underpayment of fees of: i) fifty thousand dollars (\$50,000); or, ii) two (2%) percent or more of Gross Receipts, Contractor shall, in addition to compensating the County for lost fees and applicable delinquency penalties, reimburse the County's cost of the review within one hundred eighty (180) days of Contractor's receipt of an invoice from County. Notwithstanding the foregoing, Contractor shall be obligated to reimburse only the County's actual costs incurred in conducting such an audit and review under this Section for an amount not to exceed \$10,000 in any (5) year period.

In the event the audit discloses an overpayment of fees by Contractor, Contractor may use the amount of the overpayment as a credit against future payment of franchise fees. However, if the remaining term of this Agreement is insufficient to fully reimburse Contractor through use of the credit, County and Contractor shall meet and confer to develop an estimate of the unreimbursed overpayment as of the end of the term, and County shall directly reimburse Contractor for the mutually agreed-upon unreimbursed overpayment of fees within one hundred eighty (180) days of County's receipt of an invoice from Contractor. Thereafter, within sixty (60) days following the end of the term, the parties will undertake a final reconciliation of franchise fee amounts due and amounts paid (which shall consider the County's payment of the unreimbursed overpayment), and County or Contractor shall reimburse the other, as the case may be. Contractor's claim for such an overpayment shall be limited to no more than twenty-four (24) months.

ARTICLE 10: COMPENSATION AND RATE REGULATION

10.1 GENERAL

The Contractor's compensation for performance of all its obligations under this Agreement shall be Gross Receipts. Contractor's compensation provided for in this Article shall be the full, entire and complete compensation due to Contractor pursuant to this Agreement for all labor, equipment, materials and supplies, Processing and Disposal fees, fees due to the County, taxes, insurance, bonds, overhead, operations, profit, and all other things necessary to perform all the services required by this Agreement in the manner and at the times prescribed. Except as expressly provided in this Agreement (including Section 9.3), nothing in this Section 10.1 shall obligate the County to provide any compensation to Contractor beyond Gross Receipts. If Contractor's actual costs, including fees due to the County, are more than Gross Receipts, Contractor shall not be compensated for the difference in actual costs and actual Gross Receipts, except in the events considered under Section 10.3 of this Agreement. If Contractor's actual costs, including fees due to the County, are less than the actual Gross Receipts, Contractor shall retain the difference.

Under this Agreement, Contractor shall have the right to charge and collect from Customers, Maximum Rates that are authorized by the County pursuant to the County Code for provision of services to Customers. The rates authorized by the County are maximum Rates and Contractor may, in its sole discretion, charge Customers any amount up to and including the approved maximum Rate for a given level of service.

Revenues received for the sale of Recyclable Materials including California Redemption Value revenues have been considered in the establishment of Maximum Rates for services provided under this Agreement. Neither Contractor nor the Approved

Recyclable Materials Processing Facility are entitled to grant funds available from CalRecycle through its "County/County Payment Program" pursuant to Section 14581(a)(5)(A) of the California Beverage Container Recycling and Litter Reduction Act.

10.2 RATES AND ANNUAL ADJUSTMENTS

- A. **General.** The County Board of Supervisors, through a resolution, shall be responsible for approving adjustments to the Maximum Rates as described in this Article. If at any time during the Term of the Agreement, the Contractor determines the need for a Rate that does not appear on the County-approved Rate schedule, Contractor shall immediately notify the County Contract Manager and request establishment of such Rate. For example, if a Customer requires Collection of Recyclable Materials in a fifteen (15) cubic yard Compactor five (5) times per week and the County-approved Rate schedule does not include this level of service, the Contractor must request that the County Board of Supervisors approve a Rate for this level of service. Contractor may provide services to the public which are not within Contractor's exclusive rights under this Agreement and Contractor's charges or rates for those services shall not require approval by the County.
- B. **Maximum Rates for Rate Period One.** Maximum Rates for Rate Period One were determined by Contractor and were approved by the County with the execution of this Agreement. The maximum Rates for Rate Period One shall be effective from April 1, 2025 of this Agreement through June 30, 2025.
- C. **Rates for Subsequent Rate Periods.** Maximum Rates for subsequent Rate Periods shall be adjusted annually in accordance with Exhibit A of this Agreement. The multi-index based adjustment involves use of various cost adjustment factors (such as the percentage change in the Consumer Price Index, and percentage change in the Designated Disposal Facility Tipping Fees) to calculate adjusted Rates. Such rate adjustment calculations shall be performed in strict conformance to the procedures described in this Agreement.
- D. **Rate Structure.** The County and Contractor shall meet and confer to change the relationship of individual rates in comparison with other rates. Any such changes would occur in conjunction with the annual Maximum Rate adjustment process described in Section 10.2. or in conjunction with a Maximum Rate adjustment resulting from an extraordinary rate adjustment in accordance with Section 10.3. Changes to the rates charged under the new structure shall be calculated in such a way that the revised Maximum Rate structure generates at least the same amount of total revenue when the number of accounts at each Service Level are multiplied by the rates charged for each Service Level and the resulting revenue for all Service Levels are summed.

- E. **Notification.** At least thirty (30) calendar days prior to an adjustment in rates, Contractor shall notify all of its then-current Customers of the change including the current and proposed rates for all Service Levels available to that Customer Type.

10.3 SPECIAL CIRCUMSTANCES RATE ADJUSTMENTS

It is understood that the Contractor accepts the risk for changes in cost of providing services and the Service Levels requested by Customers and therefore the Special Circumstance adjustments to Maximum Rates shall be limited to:

- A. A Change in Law;
- B. A change in services or obligations of Contractor under this Agreement requested by the County, including, without limitation, increased or modified Franchise Fees, additional or new reporting requirements, changes in service frequency, or any change in County's designation of a Facility utilized by Contractor (a "County Directed Change in Scope");
- C. An increase or decrease in direct per ton surcharges, disposal or processing fees, and other taxes, fees, charges, or surcharges assessed on the collection, transportation, processing or disposal of Franchised Materials by Federal, State or local regulatory agencies after the Effective Date of the Agreement (a "Surcharge");
- D. Those types of Uncontrollable Circumstances detailed in subsection A of the definition of Uncontrollable Circumstances under this Agreement; or
- E. A positive or negative change in the market value of Recyclable Materials of more than twenty five percent (25%) on the average annual market value as demonstrated by a recognized third-party index tracking such values where such percentage change is calculated from either the date of execution of this Agreement or the date of a prior adjustment for the same reason (a "Change in Market Value").

Contractor or County Contract Manager may petition the County Board of Supervisors for an adjustment to the Maximum Rates (either increasing or decreasing the rates) calculated in accordance with Section 10.2. The request shall be prepared in a form acceptable to the County Contract Manager with support for all assumptions made by Contractor in preparing the estimate. Notwithstanding the foregoing, with respect to a request by Contractor for a rate adjustment arising from a County-directed change in scope or a County-directed change to an out of County Designated Disposal Facility or

in the event that there is only one operating County Disposal Facility at any given time), the rates shall be increased (or decreased) to fully reflect the increase (or decrease) or incremental increase (or incremental decrease), as the case may be, in the demonstrable costs (i.e., on any direct or indirect cost, whether fixed or variable) associated with the County's directive.

Contractor shall prepare an application for the Special Circumstance Rate adjustment calculating the effect on its operations (both increases and decreases of costs) resulting from the Special Circumstances, clearly identifying all assumptions related to such calculations and providing the underlying documentation supporting the assumptions.

County Contract Manager shall evaluate the application for reasonableness. As part of that review, the County Contract Manager may request access to the financial statements and accounting records required to be maintained by the Contractor in order to determine the reasonableness of the Contractor's application. Should the Contractor not grant such access, then the County may rely on other information available to it as the basis for making reasonable assumptions regarding the reasonableness of the Contractor's application. In the event that Contractor requests the Special Circumstance Rate adjustment, Contractor shall pay all reasonable costs incurred by the County, including the costs of outside accountants, attorneys, and/or consultants, in order to make a determination of the reasonableness of the requested Rate adjustment. In the event of such an application for Special Circumstances Rate adjustment, it is understood that the Party requesting the adjustment, shall have the burden of demonstrating the reasonableness of the requested adjustment. The Contractor may appeal the County Contract Manager's reasonableness determination to the County Board of Supervisors.

With respect to a Special Circumstance Rate adjustment the County Board of Supervisors shall make the final determination as to whether an adjustment to the Maximum Rates will be made, and if a rate adjustment is permitted, the amount of the rate adjustment. The approval of an adjustment to the Maximum Rates shall not be unreasonably withheld if the adjustment is a result of a request relating to items (A)–(E) above.

10.4 PUBLICATION OF RATES

The Contractor shall provide written notice to Customers of proposed rate changes no less than thirty (30) days prior to implementing such changes. Such written notice shall be delivered to all Customers as part of the normal billing statement which Contractor sends to Customers. Contractor shall also publish such Rates in a convenient and easily found location on its website.

ARTICLE 11: INDEMNITY, INSURANCE, AND PERFORMANCE BOND

11.1 INDEMNIFICATION OF COUNTY

- A. **General.** Contractor shall indemnify, hold harmless (to the full extent permitted by law), and defend with counsel acceptable to County (which acceptance shall not be unreasonably withheld), County and its officers, officials, employees, volunteers, and agents from and against any and all claims, liability, loss, injuries, damage, expense, and costs (including without limitation costs and fees of litigation, including attorneys' and expert witness fees) (collectively, "Damages") of every nature arising out of or in connection with Contractor's performance under this Agreement, or its failure to comply with any of its obligations contained in the Agreement, except to the extent such loss or damage was caused by the active negligence or willful misconduct of the County.
- B. **Excluded Waste.** Nothing in this Agreement requires Contractor to take title to, or possession of, Excluded Waste. In the event that Contractor inadvertently takes possession of Excluded waste, Contractor shall not store, Transport, use, or Dispose of any Excluded Waste except in strict compliance with all Applicable Laws. Contractor shall not negligently or willfully mishandle Excluded Waste, and shall, at its sole expense, promptly take all investigatory and/or remedial action reasonably required for the remediation of such environmental contamination. Prior to undertaking any investigatory or remedial action, however, Contractor shall first obtain the County Contract Manager's approval of any proposed investigatory or remedial action. Should Contractor fail at any time to promptly take such action, the County may undertake such action at Contractor's sole cost and expense, and Contractor shall reimburse the County for all such expenses within thirty (30) calendar days of being billed for those expenses, and any amount not paid within that thirty (30) calendar day period shall thereafter be deemed delinquent and subject to the delinquent fee payment provisions contained herein. These obligations are in addition to any defense and indemnity obligations that Contractor may have under this Agreement. The provisions of this Section shall survive the termination or expiration of this Agreement.

Notwithstanding the foregoing, Contractor's duties under this subsection shall not extend to any claims arising from the Disposal of Solid Waste at the Designated Disposal Facility, including, but not limited to, claims arising under Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) unless such claim is a direct result of Contractor's negligence or willful misconduct.

- C. **Obligation to Provide Service and Allocation of Risk** County and Contractor agree, as more fully set forth in the Recitals to this Agreement, that proper collection, processing, diversion, and Disposal of Franchised Materials is fundamental to the

protection of the public health, safety and the well-being of County's residents, businesses. County's responsibility for ensuring the adequacy of these services in part provides the justification for the granting of a Franchise to Contractor. This Franchise creates an obligation that such services continue to be provided to the extent practicable even under difficult, adverse, or unforeseeable circumstances, such as but not limited to any period where legal actions, future judicial interpretations of current law, or new laws or regulations impact the effectiveness of portions of this Agreement.

While County reserves all powers afforded to counties generally under the provisions of applicable law, this Agreement, including the rate adjustment elements hereof, has been agreed to by the parties following arms-length negotiations and upon advice of counsel, for the dual purposes of safeguarding public health and facilitating the performance of obligations undertaken by Contractor on County's behalf and for its benefit. Accordingly, the County will exercise its powers reasonably and in good faith, and shall favorably consider and shall approve a rate adjustment proposal if accompanied by reasonable supporting evidence. In addition, and notwithstanding the above, the County shall not be in default of this Agreement nor bear any liability to Contractor for any damages suffered by Contractor as a result of the failure to implement any rate adjustment authorized pursuant to this Agreement, any other adjustment to the overall fees and charges to Customers, or the imposition and collection of the Franchise Fee or other fees, due to one or more of the events set forth below.

In such events, it shall be the responsibility of County and Contractor to mitigate any potential damages as much as possible. For example:

1. Should a court of competent County or other regulatory agency set aside, invalidate or stay all or a portion of the Maximum Rates approved by County, Contractor agrees to continue to perform its obligations as otherwise set forth herein, and County and/or Contractor may take such urgency actions necessary to facilitate Contractor's continuation of Collection Services.
2. Should there be a Change in Law or a new judicial interpretation of Applicable Law, including, but not limited to, Articles XIII C and D of the California Constitution which impacts the Maximum Rates for the Collection Services established in accordance with this Agreement, Contractor agrees to meet and confer with County to discuss the impact of such Change in Law on either Party's ability to perform under this Agreement.
3. If, as a result of a legal action, Contractor is unable to include Franchise Fees, other County fees or expenses, governmental fees or charges in the rates it charges Customers for its services, then Contractor agrees, upon direction from County, to reduce its rates in an amount corresponding to the disallowed fee or

charge, and shall thereafter not be required to remit the amount of the disallowed fee or charge, provided it is not collected from Customers.

- a. Nothing herein is intended to imply that California Constitution Articles XIII(C) or (D) apply to the Maximum Rates established for services provided under this Agreement. The foregoing paragraphs are merely intended as a contractual allocation of risks between the Parties.
- b. This Section shall survive the expiration or earlier termination of this Agreement and shall not be construed as a waiver of rights by County to contribution or indemnity from third parties.
- c. This provision is intended to be consistent with and limited by California Public Resources Code Section 40059.2.

Subject to the process set forth in Section 10.1 regarding reducing Contractor's services or obligations in the event a requested rate adjustment is not implemented for any reason, neither County nor Contractor shall have the right to obtain payment from the other Party for losses either may sustain due to a court of competent County or other regulatory agency invalidating, setting aside, or staying the collection of all or a portion of the Maximum Rates authorized hereunder, except to the extent caused by the negligence or willful misconduct of the other Party.

- D. **Survival.** This Section will survive the expiration or earlier termination of this Agreement and shall not be construed as a waiver of rights by the County to contribution or indemnity from third parties. Litigation of this nature shall not constitute an Uncontrollable Circumstance or force majeure and shall not excuse Contractor's performance under this Agreement.

11.2 INSURANCE REQUIREMENTS

General Requirements. Contractor shall, without additional charge to County or Customers, maintain in effect at all times during the Term of this Agreement not less than the following coverage and limits of insurance:

- A. **Coverages and Requirements.** During the Term of this Agreement, Contractor shall at all times maintain, at its expense, the following coverages and requirements. The comprehensive general liability insurance shall include broad form property damage insurance.

- 1. Insurance coverage shall be with limits not less than the following:

Comprehensive General Liability - \$2,000,000 combined single limit per occurrence for bodily injury, personal injury, and property damage.

Automobile Liability - \$2,000,000 combined single limit per accident for bodily injury and property damage (including coverage for Hired and Non-owned Vehicles).

Workers' Compensation - Statutory Limits/Employers' Liability - \$1,000,000/accident for bodily injury or disease.

Employee Blanket Fidelity Bond or Commercial Crime insurance policy- \$500,000 per employee covering dishonesty, forgery, alteration, theft, disappearance, and destruction (inside or outside).

Pollution Legal Liability - \$1,000,000 per claim/occurrence and \$2,000,000 aggregate for bodily injury, property damage, and remediation of contaminated site.

2. The County, its officers, agents, employees, and volunteers shall be named as additional insured on all but the workers' compensation and pollution liability coverages. Contractor can comply with this requirement using a blanket additional insured endorsement.
3. Said policies shall remain in force through the life of this Agreement and, with the exception of pollution liability coverage, shall be payable on a "per occurrence" basis unless the County's Risk Manager specifically consents in writing to a "claims made" basis. For all "claims made" coverage, in the event that the Contractor changes insurance carriers Contractor shall purchase "tail" coverage or otherwise provide for continuous coverage covering the Term of this Agreement and not less than three (3) years thereafter. Proof of such "tail" or other continuous coverage shall be required at any time that the Contractor changes to a new carrier prior to receipt of any payments due.
4. The Contractor shall declare all aggregate limits on the coverage before commencing performance of this Agreement, and the County's Risk Manager reserves the right to require higher aggregate limits to ensure that the coverage limits required for this Agreement as set forth above are available throughout the performance of this Agreement. Any such increased aggregate limits shall entitle Contractor to a Rate adjustment as a County directed change under Sections 4.9 and 10.3.
5. The deductibles or self-insured retentions are for the account of Contractor and shall be the sole responsibility of the Contractor.

6. Contractor shall notify County Contract Manager in writing within thirty (30) calendar days of cancellation of any policy.
 7. Insurance is to be placed with insurers with a current A.M. Best's rating of no less than A-VII, unless otherwise approved by the County Risk Manager.
 8. The policies shall cover all activities of Contractor, its officers, employees, agents and volunteers arising out of or in connection with this Agreement.
 9. For any claims relating to this Agreement, the Contractor's insurance coverage shall be primary, including as respects the County, its officers, agents, employees, and volunteers. Any insurance maintained by the County shall apply in excess of, and not contribute with, insurance provided by Contractor's liability insurance policy.
 10. The Contractor shall waive all rights of subrogation against the County, its officers, employees, agents, and volunteers related to the performance of services under this Agreement.
- B. **Endorsements.** Prior to the effective date pursuant to this Agreement, Contractor shall furnish the County Contract Manager with certificates or original endorsements reflecting coverage required by this Agreement. The certificates or endorsements are to be signed by a Person authorized by that insurer to bind coverage on its behalf. All certificates or endorsements are to be received by, and are subject to the approval of, the County Risk Manager before work commences.
- C. **Renewals.** During the Term of this Agreement, Contractor shall furnish the County Contract Manager with certificates or original endorsements reflecting renewals, changes in insurance companies, and any other documents reflecting the maintenance of the required coverage throughout the entire Term of this Agreement. The certificates or endorsements are to be signed by a Person authorized by that insurer to bind coverage on its behalf.
- D. **Workers' Compensation.** Contractor shall provide workers' compensation coverage as required by State law, and prior to the effective date pursuant to this Agreement, Contractor shall file the following statement with the County. "I am aware of the provisions of Paragraph 3700 of the Labor Code that require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing any services required by this Agreement."

11.3 PERFORMANCE BOND

Within seven (7) calendar days of the County's notification to Contractor that the County has executed this Agreement, Contractor shall file with the County a bond, payable to

the County, securing the Contractor's performance of its obligations under this Agreement and such bond shall be renewed annually if necessary, so that the performance bond is maintained at all times during the Term. The principal sum of the bond shall be the lesser of fifty thousand dollars (\$50,000) or twenty-five percent (25%) of Contractor's annual Gross Receipts under this Agreement. The bond shall be executed as surety by a corporation authorized to issue surety bonds in the State of California that has a rating of A or better in the most recent edition of Best's Key Rating Guide, and that has a record of service and financial condition satisfactory to the County. The bond shall be in the form required by this Agreement. The County shall accept an alternative form of surety, in a form approved by the County's Risk Manager, if desired by the Contractor (e.g. a letter of credit or certificate of deposit) and may require a higher surety amount in such case.

ARTICLE 12: DEFAULT AND REMEDIES

12.1 EVENTS OF DEFAULT

Each of the following shall constitute an Event of Default:

- A. **Collection Program.** Contractor fails to implement a Collection program that complies with the requirements herein.
- B. **Processing Capacity.** Contractor fails to provide, either directly or through its subcontractors or affiliates, adequate Processing capacity in accordance with the requirements herein.
- C. **Processing Standards.** Contractor fails to achieve, either directly or through its subcontractor or affiliates, the Processing standards specified herein, including achievement of minimum Organic Waste recovery rates.
- D. **Assignment and Transfer.** Any transaction, without any requirement of notice or cure opportunity, not in compliance with the requirements of Section 13.5 hereof.
- E. **Delivery.** The failure by the Contractor, unless specifically excused in writing by the County Contract Manager, to deliver to the Designated Disposal Facility: i) Solid Waste Collected by the Contractor; and/or, ii) Residual Waste from Processing facilities receiving Franchised Materials.
- F. **Failure to Perform.** Failure or refusal of the Contractor to perform any material term, covenant, obligation or condition in this Agreement other than a failure or refusal described in items (A)-(E) above.

G. Cure Period. No such failure or refusal of Contractor to perform any obligation under this Agreement shall give the County the right to terminate this Agreement under this Section unless:

1. The County has given prior written notice to the Contractor, stating the existence of a specific failure or refusal to perform exists which will, unless corrected, constitute a material breach of this Agreement on the part of the Contractor and which will, in the County's opinion, give the County a right to terminate this Agreement for cause under this Section unless such default is corrected within fifteen (15) days, and further provided that if a cure of the alleged default reasonably will take longer than fifteen days, Contractor shall not be deemed to be in default under this Agreement so long as Contractor begins to diligently prosecute within five (5) days, and completely cures the failure within a reasonable period of time; and
2. The Contractor has neither challenged in an appropriate forum the County's conclusion that such failure or refusal to perform has occurred or constitutes a material breach of this Agreement nor corrected or diligently taken steps to correct such default within such fifteen (15) day period (or other such reasonable time if the alleged breach cannot reasonably be cured within fifteen (15) days from receipt of the notice given pursuant to the clause (i) of this subsection (but if the Contractor shall have diligently taken steps to correct such default within a reasonable period of time, the same shall not constitute an Event of Default for as long as the Contractor is continuing to take such steps to correct such default in a timely manner).

H. Bankruptcy. The written admission by the Contractor that it is bankrupt, or the filing by the Contractor of a voluntary petition under the Federal Bankruptcy Code, or the consent by the Contractor or either Guarantor to the appointment by a court of a receiver or trustee for all or a substantial portion of its property or business, or the making by the Contractor or either Guarantor of any arrangement with or for the benefit of its creditors involving an assignment to a trustee, receiver or similar fiduciary, regardless of how designated, of all or a substantial portion of the Contractor's property or business, where such events cause a disruption in service, unless otherwise cured in accordance with this Agreement; or

The final adjudication of the Contractor as bankrupt after the filing of an involuntary petition under the Bankruptcy Act, but no such adjudication shall be regarded as final unless and until the same is no longer being contested by the Contractor nor until the order of the adjudication is no longer appealable.

I. Performance Bond. The failure of the Contractor to provide or maintain the Performance Bond required pursuant to Section 11.3 hereof, unless otherwise cured in accordance with this Agreement.

J. Operational Changes. Failure of the Contractor to timely implement the operational changes and adjusted maximum Rates resulting from the Change of Law or County-directed Change in Scope unless otherwise cured in accordance with this Agreement. The Contractor shall have 30 days, or such other time as the Parties may agree, after notice of breach from the County to implement the operational changes. Should the Contractor thereafter not implement the operational changes it shall be in default of the Agreement. In addition to being liable for all damages to the County resulting from such default, the County may terminate the Agreement.

K. Conformance with the Law. Any failure by the Contractor to comply with Applicable Law so as to materially prevent Contractor's performance of its obligations hereunder, where the time period for remedying non-compliance established by the agency is not achieved, without any requirement of notice or cure opportunity unless otherwise cured in accordance with this Agreement.

L. Other Requirements of SB 1383 Regulations. Contractor fails to comply with other requirements of the Agreement including public education, reporting, contamination monitoring, recordkeeping, or other obligations of this Agreement that delegate County's responsibility and/or authority under SB 1383 Regulations to Contractor unless otherwise cured in accordance with this Agreement.

12.2 DISPUTE RESOLUTION

If a dispute arises out of or relating to this Agreement, or the breach thereof, and if said dispute cannot be settled through negotiation, the parties agree first to try in good faith to settle the dispute by non-binding mediation before resorting to an appeal to the Board of Supervisors, litigation or some other dispute resolution procedure, unless the parties mutually agree otherwise. The mediator shall be mutually selected by the parties, but in case of disagreement, the mediator shall be selected by lot from among two nominations provided by each party. All costs and fees required by the mediator shall be split equally by the parties, otherwise each party shall bear its own costs of mediation. Mediation proceedings shall be held in the strictest confidence during the pendency of such proceedings. If mediation fails to resolve the dispute within 30 days, either party may pursue litigation to resolve the dispute.

12.3 RIGHT TO TERMINATE UPON DEFAULT

Upon a determination by the County Contract Manager that an Event of Default has occurred and after any applicable opportunities to cure under this Agreement, the County Board of Supervisors shall conduct a hearing upon no less than ten (10) days' notice to the Contractor to determine if an Event of Default has occurred, and if so, if termination

of the Agreement is in the best interests of the public health, safety, and general welfare of the citizens of the County. If the County Board of Supervisors makes such a determination, the Contractor shall be deemed to have waived any right it may have under Applicable Law to notice of termination in excess of those notice provisions explicitly set forth herein.

12.4 COUNTY'S REMEDIES CUMULATIVE: SPECIFIC PERFORMANCE

The County's right to terminate this Agreement is not exclusive, and the County's termination of the Agreement shall not constitute an election of remedies. Instead, they shall be in addition to any and all other legal and equitable rights and remedies which the County may have, including but not limited to specific performance, and fees and expenses incurred by or on behalf of the County in enforcing payment or performance of the Contractor's obligations hereunder if such nonperformance results in a judicially determined Event of Default by the Contractor.

12.5 EXCUSE FROM PERFORMANCE

- A. **Excuse from Performance.** In the event that a Party is prevented from performing its obligations under this Agreement by an Uncontrollable Circumstance, it shall not constitute a default of this Agreement, so long as the Party in good faith has used its best efforts to perform its respective obligations.

The Party claiming excuse from performance shall, within five (5) days after such Party has notice of the effect of such cause, give the other Party notice of the facts constituting such cause and asserting its claim to excuse under this Section. Specifically, such information shall include the following:

1. The Uncontrollable Circumstance and the cause thereof (to the extent known);
2. The date the Uncontrollable Circumstance began and the cause thereof, its estimated duration" the estimated time during which the performance of such Party's obligations hereunder will be delayed;
3. Its estimated impact on the other obligations of such Party under this Agreement; and
4. Potential mitigating actions which might be taken by the Contractor or County and any areas where costs might be reduced and the approximate amount of such cost reductions. While the delay continues, the Contractor or County shall give daily notice to the other Party updating the information previously submitted.

In the event that either Party validly exercises its rights under this Section, the Parties hereby waive any claim against each other for any damages sustained thereby.

- B. County's Right to Terminate.** The partial or complete interruption or discontinuance of the Contractor's services caused by one (1) or more of the events described in this Section shall not constitute a default by the Contractor under this Agreement. Notwithstanding the foregoing, however, if the Contractor is excused from performing its obligations hereunder because of any Uncontrollable Circumstance for a period of thirty (30) days or more, the County shall nevertheless have the right, in its sole discretion, to terminate this Agreement by giving sixty (60) days' notice. Such notice shall be revoked by County if, prior to the expiration of the sixty (60) day period, Contractor performs or causes the performance of the subject services.
- C. Work Stoppages Resulting in Failure to Perform.** Notwithstanding anything in this Agreement to the contrary, any strikes, work stoppages, lock-outs, or other labor disputes or disturbances occurring with respect to an activity performed or to be performed by the Contractor or any of the Contractor's Subcontractors in connection with the Operating Assets or the Collection Services and which last beyond fifteen (15) Business Days and result in any failure to perform Contractor's obligations under this Agreement shall constitute an Event of Default under Section 12.1 and may result in termination, unless Contractor has provided a work stoppage contingency plan to the County (a "Contingency Plan") within such fifteen (15) Business Day period. In the event of any such failure to perform during a labor disturbance that is not otherwise in compliance with a Contingency Plan, the County Contract Manager shall notify Contractor of the potential Default and provide Contractor up to five (5) Business Days to perform or cause the performance of services under this Agreement (or the Contingency Plan, if applicable) prior to the County Board of Supervisors finding the Agreement in Default and terminating the Agreement. Contractor may request and the County Contract Manager or Board of Supervisors may, in their sole discretion, grant one or more extensions of not more than fifteen (15) additional days, until the default is cured to the satisfaction of County.

However, in the event of a work stoppage prevents or diminishes the ability of Contractor to Collect, Transport and Dispose of any or all the Franchised Materials which it is obligated under this Agreement to Collect, Transport or Dispose of for a period of more than seventy-two (72) hours and the County Contract Manager, in their reasonable discretion, should find that such accumulation endangers or menaces the public health, safety or welfare, then County shall have the right, upon twenty-four (24) hours' notice to Contractor, to find the Contractor in Default and to contract with any other third parties to Collect and Transport any and all Franchised Materials which Contractor would otherwise be obligated to Collect and Transport pursuant to this Agreement. Contractor agrees that in such event, it will fully cooperate with County

and its third- party contractor to affect such transfer of operations in as smooth and efficient a fashion as is practicable during the pendency of the event causing the work stoppage. All costs, fees, rates or other expenses incurred by County and/or its third-party contractor that exceed those that would have been incurred by County had no such emergency arisen shall be the responsibility of the Contractor and shall be paid to County within thirty (30) days of receipt of written notice to pay. This is intended to serve as a temporary service during the pendency of the event and not as a long-term replacement for Contractor's service. Nothing in this Section shall require Contractor to provide any of Contractor's Intellectual Property, confidential information, proprietary information, or trade secrets, to any such third-party contractor.

12.6 RIGHT TO DEMAND ASSURANCES OF PERFORMANCE

If the County believes in good faith that the Contractor's ability to perform under the Agreement has been placed in substantial jeopardy by one (1) of the events enumerated below, the County Contract Manager may, at his or her option and in addition to all other remedies the County may have, require that Contractor confirm in writing that Contractor is able to perform its obligations under this Agreement. The County Contract Manager may demand assurance of performance related to the following events:

- A.** Contractor is the subject of any labor unrest, including work stoppages or slowdown, sick-out, picketing, or other concerted job action, subject to the terms of Section 12.6;
- B.** Contractor appears, in the reasonable judgment of the County, to be unable to regularly pay its bills as they become due; or
- C.** Contractor is the subject of a civil or criminal judgment or order entered by a federal, state, regional, or local agency for violation of Applicable Law. If the Contractor fails or refuses to provide to the County adequate information to establish its ability to perform within thirty (30) days, such failure or refusal shall be an Event of Default for purposes of Section 12.1.

12.7 PERFORMANCE STANDARDS AND LIQUIDATED DAMAGES

- A. General.** The Parties find that as of the time of the execution of this Agreement, it is impractical, if not impossible, to reasonably ascertain the extent of damages which shall be incurred by County as a result of a breach by Contractor of certain obligations under this Agreement. The factors relating to the impracticability of ascertaining damages include, but are not limited to, the fact that: (i) substantial damage results to members of the public who are denied services or denied quality or reliable service; (ii) such breaches cause inconvenience, anxiety, frustration, and deprivation of the benefits of the Agreement to individual members of the general public for whose benefit this Agreement exists, in subjective ways and in varying degrees of intensity which are incapable of measurement in precise monetary terms; (iii) that exclusive

services might be available at substantially lower costs than alternative services and the monetary loss resulting from denial of services or denial of quality or reliable services is impossible to calculate in precise monetary terms; and, (iv) the termination of this Agreement for such breaches, and other remedies are, at best, a means of future correction and not remedies which make the public whole for past breaches.

- B. Service Performance Standards; Liquidated Damages for Failure to Meet Standards.** The Parties further acknowledge that consistent, reliable Collection services are of utmost importance to County and that County has considered and relied on Contractor's representations as to its quality of service commitment in awarding the Agreement to it. The Parties recognize that some quantified standards of performance are necessary and appropriate to ensure consistent and reliable service and performance and to support County's compliance with various State statutes and corresponding regulations including, but not limited to, AB 939, AB 341, AB 1826, and SB 1383. The Parties further recognize that if Contractor fails to achieve the performance standards, or fails to submit required documents in a timely manner, County and its residents and businesses will suffer damages, and that it is, and will be, impractical and extremely difficult to ascertain and determine the exact amount of damages which County will suffer. Therefore, without prejudice to County's right to treat such non-performance as an event of default under this Section, the Parties agree that the Liquidated Damages amounts established herein and the Liquidated Damage amounts therein represent a reasonable estimate of the amount of such damages considering all of the circumstances existing on the Effective Date of this Agreement, including the relationship of the sums to the range of harm to County that reasonably could be anticipated and the anticipation that proof of actual damages would be costly or impractical.

Before assessing Liquidated Damages, County shall give Contractor notice of its intention to do so. The notice will include a brief description of the incident(s) and non-performance. County may review (and make copies at its own expense) all information in the possession of Contractor relating to incident(s) and/or non-performance. County may, within ten (10) Business Days after issuing the notice, request a meeting with Contractor. County may present evidence of non-performance in writing and through testimony of its employees and others relevant to the incident(s) and non-performance. County Contract Manager will provide Contractor with a written explanation of their determination on each incident(s) and non-performance prior to authorizing the assessment of Liquidated Damages under this Section. Within ten (10) Business Days of receipt of such notice of intention to assess Liquidated Damages, Contractor may request that no Liquidated Damages may be imposed on Contractor until Contractor has been given a reasonable opportunity to respond to allegations and to meet and confer with the Director. Any subsequent appeals by Contractor shall be addressed in accordance with the procedures delineated in this Agreement.

C. Amount. Contractor agrees to pay (as Liquidated Damages and not as a penalty) the amounts set forth herein. County may assess Liquidated Damages for each

calendar day or event, in accordance with this Section 12.8(D), that Contractor is determined to be liable in accordance with this Agreement in the amounts specified below.

1. Excessive complaints. When Contractor or the County Contract Manager receives unresolved, unaddressed complaints from more than three percent (3%) of its client base within a six (6) month period, Contractor will be assessed twenty-five (\$25) per complaint per occurrence during that period; and an additional twenty-five (\$25) each twenty-four (24) hours until the complaint is reasonably resolved. For purposes of this section, "complaints" shall mean substantive and credible Customer notifications to the Contractor or the County Contract Manager of missed pick-ups, property damage, missed commitments, employee misconduct or poor quality of service (e.g. litter on property or public right-of-way or misplacement of Containers).
2. Failure to provide access to Operating Assets or any other documents or information within fourteen (14) days of a request by the County Contract Manager: one hundred dollars (\$100) per day per occurrence.
3. Failure to charge a Customer at or below the maximum approved Rate, where the overcharge is not refunded on the next invoice: fifty dollars (\$50) per occurrence per Customer where the number of Customers overcharged is less than twenty-five (25); five hundred dollars (\$500) per occurrence per Customer where the number of Customers overcharged is twenty-five (25) or more. In addition, Contractor shall be responsible for refunding any amount overcharged to each Customer determined to be overcharged. Contractor shall not be entitled to any refund from the County for Franchise Fees or other fees paid on overcharged amounts.
4. Failure to implement any one of the strategies listed in the Recycling Plan: fifty dollars (\$50) per day for each day in excess of fifteen (15) days following Contractor's receipt of written notice from County.
5. Collection outside permitted hours: one hundred dollars (\$100) per occurrence.
6. Failure to provide Collection services on the scheduled service day to 99% of customers: ten dollars (\$10) per Container not served.
7. Failure to Collect a Container in response to a Customer complaint regarding a missed pick-up within one (1) Business Day: ten dollars (\$10) per Container.
8. Each individual occurrence of delivering Discarded Materials to a Facility other than an Approved Facility(ies), in the absence of an Uncontrollable

Circumstance, for each Discarded Material type under this agreement: fifty dollars (\$50) per Occurrence.

9. For each occurrence of failing to provide Customers with the three-Container system required by and complaint with this Agreement, excluding Generators and Customers granted valid waivers, and excluding Generators and Customers that demonstrate compliance with Recycling and Organic Waste Self-Hauling requirements pursuant to County Code Section 4-03-1665 and 14 CCR Division 7, Article 12, Article 7: ten dollars (\$10) per occurrence.
 10. Failure of the Approved Source Separated Recyclable Materials Processing Facility or Approved Organic Waste Processing Facility to meet SB 1383 Regulatory definition of a Designated Source Separated Organic Waste Processing Facility. For each Ton of Source Separated Recyclable Materials or SSGCOW received at the Facility(ies) in a quarterly reporting period when the quarterly average organic content recovery rate is lower than required by 14 CCR Section 18982(a)(14.5), one hundred dollars (\$100) / Ton in the quarterly reporting period when the failure occurred
 11. For each occurrence of Contractor's failure to comply with Container Labeling and color requirements pursuant to Section 7.7 of this Agreement: ten dollars (\$10) per occurrence.
 12. For each failure to perform any individual education and/or outreach activity as required and in the timeframe specified by this Agreement: one hundred dollars (\$100) per occurrence.
 13. Failure to Submit Reports or Allow Access to Records. For each failure to submit any individual report or provide access to records in compliance with and in the timeframe specified in this Agreement. Incomplete reports shall be considered a failure to submit until such time as all information in the report has been provided in a complete and accurate form. In the event the County reasonably determines a report to be incomplete more than ten (10) Business Days after submittal by Contractor, Contractor shall be given ten (10) Business Days to complete and correct and any pending Liquidated Damages shall be tolled during that period. For each such failure, one hundred dollars (\$100) per report per occurrence.
- D. **Timing of Payment.** Contractor shall pay any Liquidated Damages assessed by County within thirty (30) Business Days of the date the Liquidated Damages are assessed. If they are not paid within the thirty (30) Business Day period, County may

proceed against the performance bond required by the Agreement, order the termination of the rights or "franchise" granted by this Agreement, or all of the above.

ARTICLE 13: OTHER AGREEMENTS OF THE PARTIES

13.1 RELATIONSHIP OF PARTIES

- A.** This Agreement is entered into by both parties with the express understanding that Contractor will perform all services required under this Agreement as an independent contractor. Nothing in this Agreement shall be construed to constitute the Contractor or any of its agents, employees or officers as an agent, employee or officer of County.
- B.** Contractor agrees to advise everyone it assigns or hires to perform any duty under this Agreement that they are not employees of County. Subject to any performance criteria contained in this Agreement, Contractor shall be solely responsible for determining the means and methods of performing the specified services and County shall have no right to control or exercise any supervision over Contractor as to how the services will be performed. As Contractor is not County's employee, Contractor is responsible for paying all required state and federal taxes. In particular, County will not:
 - 1. Withhold FICA (Social Security) from Contractor's payments.
 - 2. Make state or federal unemployment insurance contributions on Contractor's behalf.
 - 3. Withhold state or federal income tax from payments to Contractor.
 - 4. Make disability insurance contributions on behalf of Contractor.
 - 5. Obtain unemployment compensation insurance on behalf of Contractor.
- c.** Notwithstanding this independent contractor relationship, County shall have the right to monitor and evaluate the performance of Contractor to assure compliance with this Agreement.

13.2 COMPLIANCE WITH LAW

Contractor must provide services in accordance with applicable Federal, State, and local laws, regulations and directives. With respect to Contractor's employees, Contractor must comply with all laws and regulations pertaining to wages and hours, state and federal income tax, unemployment insurance, Social Security, disability insurance, workers' compensation insurance, and discrimination in employment. Contractor further agrees to comply with any and all laws related to handling of Excluded Waste.

13.3 GOVERNING LAW

The laws of the State of California, without reference to California conflict of laws principles, govern this Agreement and its interpretation. The Parties agree that this Agreement is made in and will be performed in Tulare County, California.

13.4 JURISDICTION

This Agreement shall be interpreted and governed under the laws of the State of California without reference to California conflicts of law principles. Any lawsuits between the Parties arising out of this Agreement shall be brought and concluded in the courts of Tulare County in the State of California, which shall have exclusive jurisdiction over such lawsuits. With respect to venue, the Parties agree that this Agreement is made in and will be performed in Tulare County.

13.5 ASSIGNMENT, TRANSFER AND SUBCONTRACTING

A. Consent of the County Required. This Agreement shall not be transferred, sold, pledged, hypothecated, leased, or assigned (each an "Assignment" or to "Assign"), nor shall any of the rights or privileges herein be transferred, sold, pledged, hypothecated, leased, or assigned, either in whole or in part, nor shall title hereto or thereto, either legal or equitable, or any right, interest or property herein or therein, pass to or vest in any Person, except the Contractor, either by action or inaction of the Contractor, or by operation of law, without the prior written consent of the County, which may be withheld or delayed in County's discretion.

The Contractor shall provide written notice of any request to assign or transfer this Agreement, and shall provide the County with any information requested by the County in connection with the proposed transfer, included but not limited to information regarding the general business qualifications of the proposed assignee, as well as its ability to perform the Collection Services and a statement of its financial resources. The Contractor's notice of intention to assign this Agreement shall contain a statement of the allocation of dollars in the consideration to be paid by the assignee to the Contractor for (a) goodwill, (b) equipment, and (c) any other asset transfer which has any connection with said assignment, all as agreed upon by the Contractor and the assignee. The notice shall also contain a statement showing the method of payment for the consideration and whether the Contractor proposes to hold some security interest as security for the payment of the unpaid balance of the consideration. Notwithstanding any provision herein to the contrary, a consolidation, an assignment or transfer of this Agreement from Contractor (i) to an Affiliate who is

an Affiliate on the date of execution of this Agreement, (ii) between Contractor or members of their immediate family, (iii) between members of the same immediate family, or (iv) to a trust, testamentary or otherwise does not require the prior written consent of the County and is not subject to any requirement herein for submittal of information, reimbursement of costs or the transfer fee.

The County shall respond to any such request within ninety (90) days after receipt of any information requested by the County pursuant to the preceding sentence. The Contractor acknowledges that, prior to approving such a transfer, the County must find that such a transfer is in the best interests of the public health, safety, and general welfare. Any attempt by the Contractor to effectuate any of the foregoing without such consent of the County shall be null and void, and any effectuation of any of the foregoing without such consent of the County shall constitute an Event of Default resulting in the immediate termination of this Agreement as provided herein.

B. Consolidation, Merger, Sale, Transfer, and Change in Control. Except with respect to an Assignment to an Affiliate of Contractor, Contractor shall not, without the prior written consent of the County which may be withheld or delayed in its sole and absolute discretion, consolidate with or merge with another entity or permit one (1) or more other entities to consolidate with or merge into it. Notwithstanding any provision herein to the contrary, an Assignment, consolidation, merger, sale, transfer, or change of control from Contractor (i) to an Affiliate who is an Affiliate on the date of execution of this Agreement, (ii) between Contractor or members of their immediate family, (iii) between members of the same immediate family, or (iv) to a trust, testamentary or otherwise does not require the prior written consent of the County and is not subject to any requirement herein for submittal of information, reimbursement of costs or the transfer fee.

C. Transfer of Voting Stock. Except with respect to an Assignment to an Affiliate of Contractor, County's prior written consent, which may be withheld or delayed in its sole and absolute discretion, shall be required for the sale or transfer by any means, whether by agreement or by operation of law (including transfers resulting from death, bankruptcy or divorce), of any of the voting stock of the Contractor. Notwithstanding any provision herein to the contrary, a transfer of voting stock from (i) Contractor to an Affiliate who is an Affiliate on the date of execution of this Agreement, (ii) between Contractor or members of their immediate family, (iii) between members of the same immediate family, or (iv) to a trust, testamentary or otherwise does not require the prior written consent of the County and is not subject to any requirement herein for submittal of information, reimbursement of costs or the transfer fee.

D. Costs Related to Assignment. The County's approval of such an assignment shall be conditioned on the receipt of the transfer fee. Except with respect to an Assignment to an Affiliate of Contractor, if the Contractor requests the consent of the County for any transaction described in this Section, the proposed assignee, as a condition of assignment, shall reimburse the County for all costs and expenses incurred by the County in reviewing, examining, and analyzing the request, including all direct and indirect administrative expenses of the County and consultants and attorney's fees and expenses. The transfer fee shall not be refundable to the Contractor in the event that the County determines, in its sole discretion, that the proposed assignment is unacceptable. Such costs shall be supported with evidence of the expense or cost incurred.

Along with its written request for the review of the assignment, Contractor shall remit to County one hundred thousand dollars (\$100,000). The County shall deduct from this sum all reasonable costs incurred in reviewing the requested assignment. Any funds remaining following the deductions described in this Section shall be returned to the assignee. In the event that the County's total costs for the review of the assignment exceed one hundred thousand dollars (\$100,000) the assignee shall compensate the County for its actual and reasonable costs within thirty (30) days of receiving the County's invoice.

13.6 BINDING ON SUCCESSORS

This Agreement shall bind and inure to the benefit of the Parties hereto and any successor or assignee acquiring an interest hereunder consistent with the provisions hereof.

13.7 WAIVER

The failure of either Party to insist on strict compliance with any provision of this Agreement will not be considered a waiver of any right to do so, whether for that breach or any later breach. The acceptance by either Party of either performance or payment will not be considered a waiver of any preceding breach of the Agreement by the other Party.

14.1 COUNTY CONTRACT MANAGER

The County has designated the County Contract Manager to be responsible for the monitoring and administration of this Agreement. Contractor shall meet and confer with the County Contract Manager to resolve differences of interpretation and implement and execute the requirements of this Agreement in an efficient and effective manner that is consistent with the stated objectives of this Agreement.

From time to time the County Contract Manager may designate other employees or agents of the County to work with Contractor on specific matters. In such cases, those individuals should be considered designates of the County Contract Manager for those matters to which they have been engaged. Such designates shall be afforded all of the rights and access granted thereto. In the event of a dispute between the County Contract Manager's designee and Contractor, the County Contract Manager's determination shall be conclusive.

County Contract Manager or their designate shall have the right to observe and review Contractor operations and Processing Facilities and enter Premises for the purposes of such observation and review, including review of Contractor's records, during reasonable hours with reasonable notice. In no event shall Contractor prevent access to such Premises for a period of more than three (3) calendar days after receiving such a request.

The County Contract Manager is authorized and empowered to adjust, settle, or compromise any controversy or charge arising from the operations under this Agreement, either on behalf of the County, contractor, or the public.

14.2 INTERPRETATION

This Franchise Agreement has been negotiated at arm's length between persons sophisticated and knowledgeable in the matters dealt with in this Agreement. In addition, each Party has been represented by experienced and knowledgeable independent legal counsel of their own choosing or has knowingly declined to seek such counsel despite being encouraged and given the opportunity to do so. Each Party further acknowledges that they have not been influenced to any extent whatsoever in executing this Agreement by any other Party hereto or by any person representing them, or both. Accordingly, any rule of law (including California Civil Code Section 1654) or legal decision that would require interpretation of any ambiguities in this Franchise against the Party that has drafted it is not applicable and is waived. The provisions of this Agreement shall be interpreted in a reasonable manner to affect the purpose of the Parties and this Agreement.

In this Agreement, unless the context otherwise requires:

- A. References Hereto.** The terms "hereby," "hereof," "herein," hereunder," and any similar terms refer to this Agreement, and the term "hereafter" means after, and the term "heretofore" means before, the date of execution of this Agreement.
- B. Gender and Plurality.** Words of the masculine gender mean and include correlative words of the feminine and neutral genders.
- C. Construction:** This Agreement reflects the contributions of all undersigned parties and accordingly the provisions of Civil Code section 1654 shall not apply to address and interpret any alleged uncertainty or ambiguity.
- D. Headings.** The table of contents and Section headings are provided for organizational purposes only and do not in any manner affect the scope, meaning or intent of the provisions under the headings.
- E. Reference to Days.** All references to days herein are to calendar days, including Saturdays, Sundays, and holidays, except as otherwise specifically provided.
- F. Units of Measure.** Weights or volumes described herein may be reported in either metric or U.S. Standard terms of measurement, unless State or Federal law or regulation specifies the system of measurement to be used.

G. Applicable Law. This Agreement shall be governed by and construed in accordance with Applicable Law. This Agreement is intended to be fully consistent with the requirements of the County Code and any subsequent amendments thereto. In the event there is an inconsistency or conflict between this Agreement and the County Code, the County Code is controlling and shall substitute for the inconsistent provision.

H. Entire Agreement. This Agreement represents the entire agreement between Contractor and County as to its subject matter and no prior oral or written understanding will be of any force or effect. The recitals and the exhibits to this Agreement are fully incorporated into and are integral parts of this Agreement. No part of this Agreement may be modified without the written consent of both parties. Unless specifically set forth, the parties to this Agreement do not intend to provide any other party with any benefit or enforceable legal or equitable right or remedy.

14.3 SEVERABILITY

If any clause, provision, subsection, section, or article of this Agreement shall be determined to be invalid by any court of competent jurisdiction, then the Parties hereto shall:

- A. Promptly meet and negotiate a substitute for such clause, provision, section, or article which shall, to the greatest extent legally permissible, effect the intent of the Parties therein.
- B. If necessary or desirable to accomplish item (1) above, apply to the court having declared such invalidity for a judicial construction of the invalidated portion of this Agreement.
- C. Negotiate such changes in, substitutions for or additions to, the remaining provisions of this Agreement as may be necessary in addition to and in conjunction with items (1) and (2) above, to effect the intent of the Parties in the invalid provision. The invalidity of such clause, provision, subsection, section, or article shall not affect any of the remaining provisions hereof, and this Agreement shall be construed and enforced as if such invalid portion did not exist; provided that Contractor shall be entitled to a Rate adjustment under Section 10.3 for any modified services or obligations as if it were a County Directed Change in Service under Section 4.9.

14.4 AMENDMENT

Neither this Agreement nor any provision hereof may be changed, modified, amended or waived except by written agreement duly executed by both Parties.

14.5 CONFLICTS OF INTEREST

Contractor agrees to, at all times during the performance of this Agreement, comply with the law of the State of California regarding conflicts of interests and appearance of conflicts of interests, including, but not limited to Government Code Section 1090 et seq., and the Political Reform Act, Government Code Section 81000 et seq. and regulations promulgated pursuant thereto by the California Fair Political Practices Commission. The statutes, regulations and laws previously referenced include, but are not limited to, prohibitions against any public officer or employee from making any decision on behalf of County in which such officer or employee has a direct or indirect financial interest. A violation can occur if the public officer, employee or consultant/contractor participates in or influences any County decision which has the potential to confer any pecuniary benefit on Contractor or any business firm in which Contractor has an interest, with certain narrow exceptions.

Contractor agrees that if any facts come to its attention which raise any questions as to the applicability of conflicts of interest laws, it will immediately inform the County designated representative and provide all information needed for resolution of this question.

14.6 COUNTERPARTS

The Parties may sign this Agreement in counterparts, each of which shall be deemed an original and all of which taken together form one and the same agreement. A signed copy or signed counterpart of this Agreement delivered by facsimile, email, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of a signed original or signed copy of this Agreement.

14.7 FURTHER ASSURANCES

Each party will execute any additional documents and perform any further acts that may be reasonably required to affect the purposes of this Agreement. The Parties agree to act reasonably in exercising any action, discretion, judgment, approval or extension of time that may be required to affect the purpose and intent of this Agreement. Whenever the approval or consent of a Party is required under this Agreement such consent shall not be unreasonably withheld or delayed.

14.8 ACTIONS OF THE COUNTY IN ITS GOVERNMENTAL CAPACITY

Nothing in this Agreement shall be interpreted as limiting the rights and obligations of the County in its governmental or regulatory capacity, or as limiting the right of the Contractor to bring any legal action against the County, not based on the provisions set forth in this Agreement, arising out of any act or omission of the County in its governmental or regulatory capacity.
