On December 13, 2022, the Board approved the Community Corrections Partnership Public Safety Realignment Plan (Plan) which approved a one-time allocation of additional AB 109 funds for the Sheriff's Camera and Console Upgrade Project (Project). The Plan allocated \$3,247,364 towards the Project and the remaining will be covered by the standard allocation of AB 109 funds.

The security electronics equipment at both the Bob Wiley and Adult Pre-Trial facilities is beyond its serviceable life and is in need of replacement. A Request for Qualifications was released soliciting Statements of Qualifications (SOQ) from firms interested in completing the Project. There were four firms that submitted SOQ's which were ranked based upon objective scoring criteria. CML, Security, LLC (CML) was the highest ranked firm. After selection and negotiations, CML submitted a full scope proposal in the amount of \$4,140,149.

The Project is for the design and construction of a fully functional security electronics system at both the Bob Wiley Detention and Adult Pre-Trial Facilities. The scope of work includes but is not limited to, design, new control stations, millwork, touch screen interfaces, LED monitors, replacing all existing cameras, adding new camera locations,
