Deadliest Drug: ***Fentanyl***

Fentanyl is a synthetic opioid that is 80 to 100 times stronger than morphine. According to the Centers for Disease Control and Prevention (CDC)

DRUG AND SUBSTANCE ABUSE · Published December 16, 2021 5:08pm EST

Fentanyl overdoses become No. 1 cause of death among US adults, ages 18-45: 'A national emergency'

More adults between 18 and 45 died of fentanyl overdoses in 2020 than COVID-19, motor vehicle accidents, cancer and suicide

This is how much Fentanyl it takes to kill an adult...

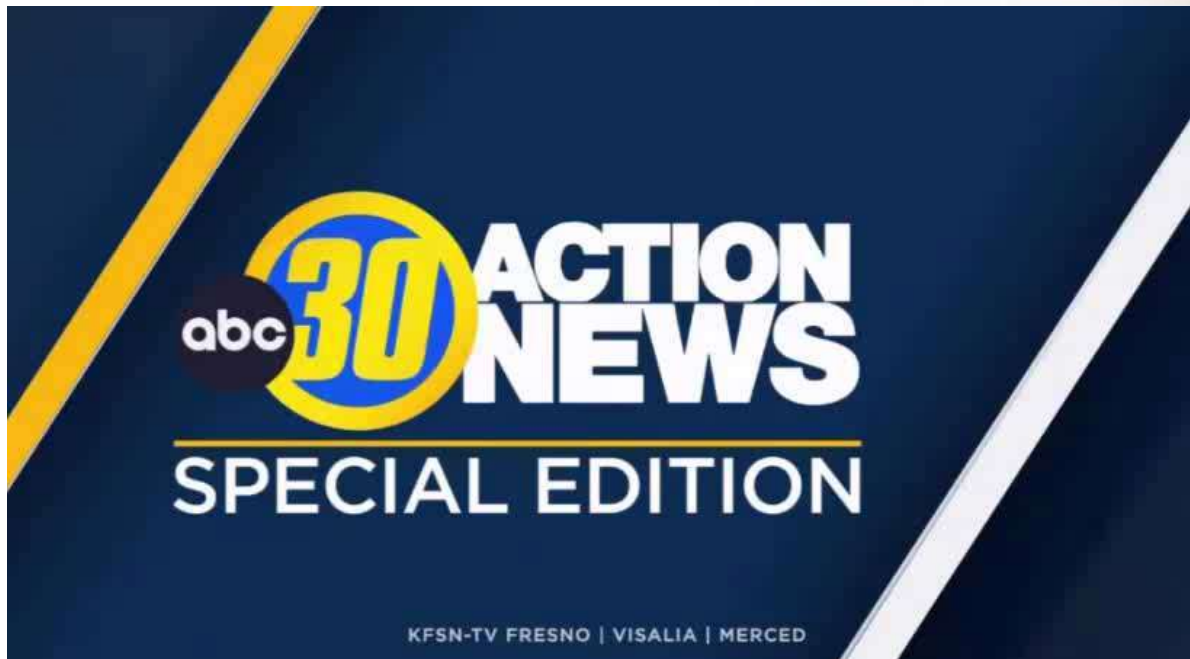

- Fentanyl is added in amounts that are not measured to all kinds of synthetic pills sold on the streets
- The people who "sell" them are often users themselves, who have become addicted and sell for supply and cash

How does it start?

- **Marijuana (Carts, Vape pens, Wax pens)**
- **Xanax Bars**
- **M-30 Pills laced with Fentanyl**
- **Fentanyl powder**

DEA

**OPIOIDS AND FENTANYL DO NOT
DISCRIMINATE
THEY KILL EVERYONE!!!**

Vaping Marijuana

Vaping seems to be replacing smoking

Daniel Ament – Double Lung Transplant Teen

- He went from an athletic, fun-loving happy teen to suddenly having to fight for his life
- Started vaping winter of 2018, surgery Oct of 2019
- "I spent 29 days on life support as a 16-year-old and I only had a 10 percent chance of survival," he said.
- Takes 20 pills a day in recovery

Vaping caused North Texas teen's lungs to fail, doctors say

Tryston Zohfeld is 17 years old and told WFAA that he's been vaping since the 8th grade, sometimes going through two to three vaping pods a week.

Credit: ZOHFELD FAMILY

Tryston Zohfeld is intubated after arriving at Cook Children's.

Narcan

How to administer Narcan Nasal Spray

DEA

Use of Narcan

- If friend or classmate is showing signs of an overdose, and Narcan is available; administer ASAP!
- If no Narcan available, call 911 ASAP!
- You have no more than 5 minutes to administer Narcan before Lungs fill up with fluid which will contribute to death.
- Can take several doses of Narcan to stop an overdose.
- If Narcan is administered seek medical attention!!!

DEA

Misinformation of Narcan

- **Narcan cannot be relied upon to stop a fentanyl OD (i.e., there are many types of fentanyl that Narcan cannot reverse).**
- **Narcan parties are not a solution to stopping overdoses!**
- **Buddy system/Wing man.**

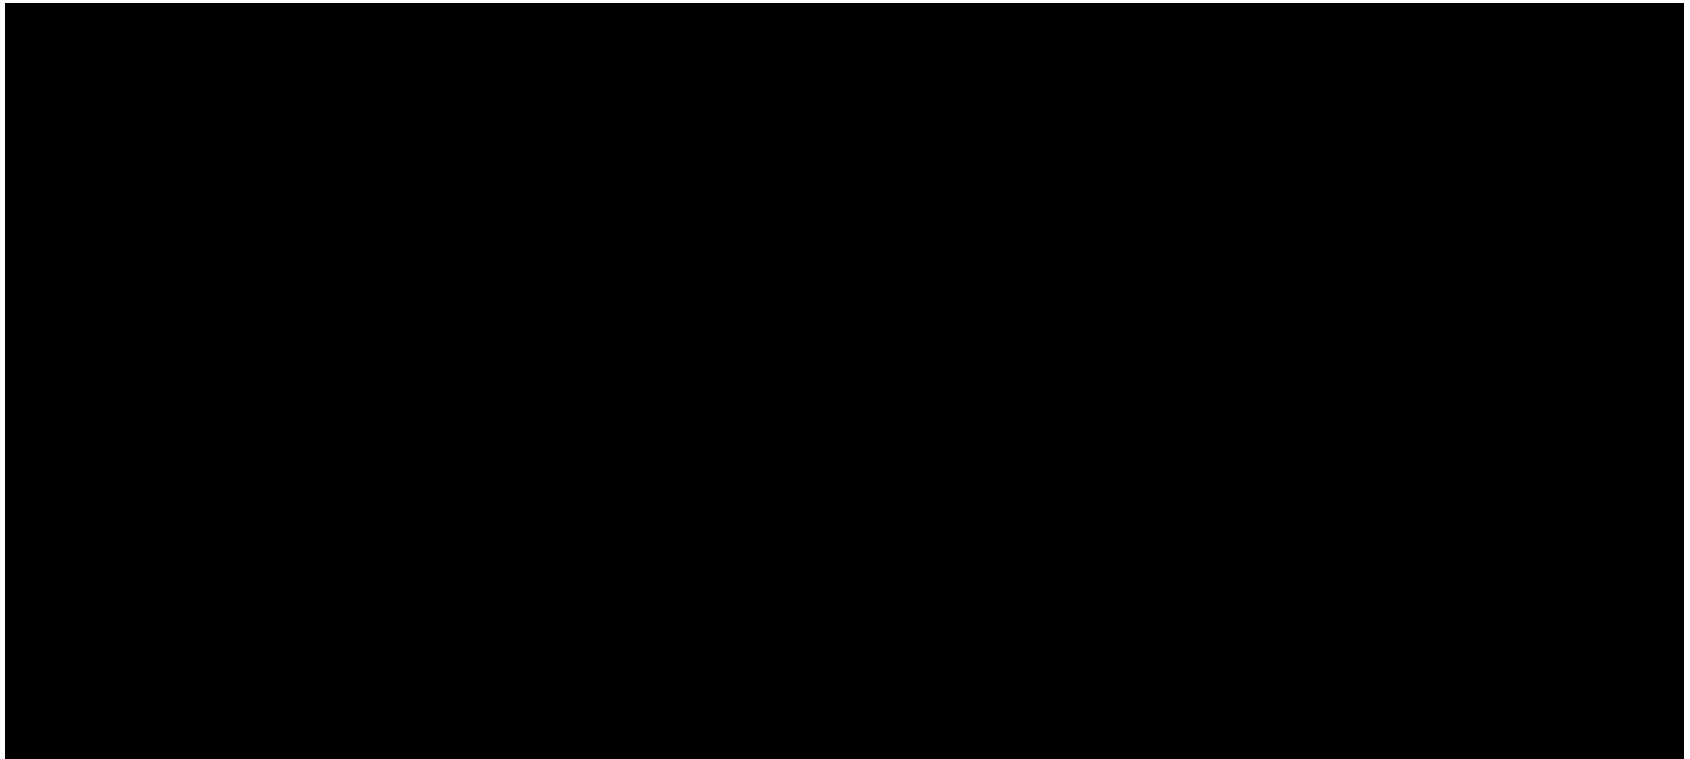

DEA

Things to Remember

- **Do not take any pills from anyone other than a Medical Doctor. You can't be sure the pill is legit or counterfeit!**
- **Peer pressure ...**
- **If you overdose and are revived, you can still suffer from permanent damage to your brain due to overdose.**
- **Fentanyl is so powerful you can become addicted after only a couple of uses. Once you are addicted to fentanyl it's not so simple to stop "cold turkey".**
- **If you call the police, you will not get in trouble.**
